

```
std::enable_shared_from_this< Client >
```

Client

```
graph BT; Client --> Base["std::enable_shared_from_this< Client >"]
```

The diagram illustrates a C++ class hierarchy. A box at the bottom is labeled 'Client'. A vertical arrow points upwards from the 'Client' box to a box above it. The box above contains the text 'std::enable_shared_from_this< Client >', representing the base class that 'Client' inherits from.
